

ABEL M. GETNET

Computer Engineer

Addis Ababa, Ethiopia
abelmitikugetnet2020@gmail.com

Career Objective

I am a Computer and Electrical Engineer that thrives on new knowledge and helping others. I'm enthusiastic about growing and gaining new skills on my Computer/Software Engineering journey. I believe in getting things done but smiling, laughing, and even twirling along the way.

Additional Skills

- Hardware, Software skill
- python & sql
- Critical Thinking
- Communication Skills

Work Experience

2020-2021
Advanced
Engineering

Full stack developer

A fantastic opportunity to become acquainted with the outside world. Advanced Engineering is a company that is directly tied to my department and is working on heavy car / CAT machinery. Overall, the internship period provided me with an excellent opportunity to put my academic knowledge into the IT and Electrical department as genuine and practical experience.

Education

2016-2022
AddisAbaba
University

Computer and Electrical Engineer, BSc

2014 - 2015
